

Notice to Manufacturers

2023 Golf Club and Other Equipment Submissions (Not Including Golf Balls) **May 30, 2023**

As you may know, the Equipment Standards department will be moving its operation from Liberty Corner, NJ to Pinehurst, NC at the end of 2023. To minimize disruption to the conformance evaluation process, please take note of the following key dates:

1. To the extent possible, please make every attempt to submit items that will need to appear on the List of Conforming Driver Heads or the Informational Club Database on or before January 1, 2024, by no later than **November 17, 2023**.
2. We will be receiving golf club and other equipment submissions (excluding golf balls) in Liberty Corner through **December 8, 2023**, and we will make every effort to process those submissions by **December 22, 2023**. However, we will process submissions on a first-in, first-out basis and we may not complete the evaluation until the first week or two in January 2024.
3. Golf clubs and other equipment (excluding golf balls) submitted to the USGA after **December 8, 2023**, must be sent to and received in Pinehurst, NC. Please note that we will be in the process of transitioning the lab to Pinehurst from November 2023 through early January 2024. As a result, there may be delays in providing conformance decisions for equipment received in Pinehurst.
4. In November of 2023, we will provide you with an updated submission form which will include the new shipping address.

Should you have questions, please contact Shannon Kane, Manager, Club Conformance of Equipment Standards, at skane@usga.org or 908-326-1954.

Thank you.

USGA Conformance Administration Staff
